THEY DON'T READ THE BEE.

There are scores of our high-toned(?) citizens who are always saying they don't read the BEE. No one cares whether they do or not. But those same individuals are always inquiring what its contents are. The real fact is they are too impecunious to make an honest purchase of a paper but prefer to sponge on their good natured friends. Some young ladies say that they would not read a colored paper at all because speaks too plainly about matters. Yet those same persons waste their midnight oil in reading literature that would turn a mummy to a bluish. It cannot be denied that the Bee, while it does not bite off its words at both ends, and call a hoe an implement of agriculture for fear of offending some one,—it does undertake to say that it off-ers far more valuable instruction than any paper for its size in the District. That is to say that the character of its information exceeds even the dailies. For what one of them tells of the true progress of our people home and abroad. One might safely venture this remark that he who does not read the Bee knows little of the colored race. That is those persons resident in the District. It is to be hoped that this narrow mean prejudice will melt away before the advance of a decent and intellectual people. It was not sophistry when Aristotle debated how many souls could be

put on the the point of a needle, for indeed had he lived up to this time he could have readily determined that there are human beings whose souls are so small that you could put a dozen or more in the point of a needle and then have plenty of room to sew. Those who do not read the Bee, have no doubt been guilty of some infamous crime of which they are ashamed to be told. All moral and honest people are not ashamed to read anything.

ANOTHER LITERARY ASSOCIATION.

PROF. W. B. JOHNSON ON THE IMPROVEMENT OF THE RACE.

Prof. W. B. Johnson of Wayland Seminary and pastor of the 2d Baptist church was greeted with a large number of his congregation and many other persons interested in the welfare of the race, at his church last Thursday evening. Prof. Johnson on assuming the chair stated that his purpose in calling his people together was the organization of a literary association upon a cosmopolitan basis. He didn't want any one to feel that he was a stranger; that he didn't desire to confine the proposed association particularly to his church, but to make a wel come. After a pleasant exchange of views among those present, Prof. Johnson was elected temporary president and Miss Lizzie Mason, temporary secretary. On motion of Mr. Austin Ficklin, a committee on permanent organization was appointed, which brought in the names of permanent officers. While the committee was out Mr. W. Calvin Chase was invited to address the audience, after which the committee reported for president, C. F. Bundy; vice president, Miss L. A. Cooper; secretary, Miss L. Mason; and treasury, Mr. H. B. Franey. Mr. Bundy in a neat address said that on account of his business he could not accept of the presidency of the association, but he would do as much as anybody else to make the association a success and would therefore decline in favor of Mr. Chase, who had just addressed them. On motion of Mr. Maxfield the name of Mr. Bundy was stricken out and Mr. Chase's name inserted who was elected. A committee on constitution and by laws and program for next Thursday evening were appointed. Great interest among the people is manifested in this laudable undertaking on the part of Prof. Johnson and the people may look for one of the finest literary associations in the city.
